

## Q8 Garden Pro Synt 2T

Synthetic ester based 2-stroke engine oil for garden machinery

### Description

Q8 Garden Pro Synt 2T is an exceptional synthetic 2-stroke engine oil for garden machinery. It is based on carefully selected synthetic esters, prediluted for a perfect mixing with gasoline. The superior Q8 Garden Pro Synt 2T extends the service life of the engine, ensures extreme performance and reduces power losses. It ensures exceptional wear and seizing protection in all conditions.

### Applications

Q8 Garden Pro Synt 2T is used for 2-stroke engines of professional machinery used in gardening such as lawn mowers, chainsaws, small tractors, hedge trimmers, leaf blowers or snow blowers, etc. It widely exceeds the requirements of ISO, API, JASO, TISI and Husqvarna 346 & Husqvarna 372.

### Benefits

- Superior exhaust system blockage reduction.
- Superior spark plug fouling and preignition tendency prevention.
- Exceptional high temperature deposit control.
- Maximal protection against piston ring-sticking and varnish deposits.
- Exceptional protection against rust and corrosion.

### Specifications, recommendations and approvals

|        |        |      |    |
|--------|--------|------|----|
| API    | TC +++ | JASO | FD |
| Global | GD     | TISI |    |
| ISO    | L-EGD  |      |    |

### Properties

|                            | Method | Unit               | Typical |
|----------------------------|--------|--------------------|---------|
| Density, 15 °C             | D 4052 | g/ml               | 0,872   |
| Kinematic Viscosity, 40 °C | D 445  | mm <sup>2</sup> /s | 55      |
| Pour Point                 | D 97   | °C                 | -45     |
| Flash Point, COC           | D 92   | °C                 | 110     |
| Sulfated Ash               | D 874  | % mass             | 0.1     |
| Colour                     | Visual | -                  | Red     |

The figures above are not a specification. They are typical figures obtained within production tolerances.
