

Q8 Degreasing Fluid B

Non-emulsifiable degreasing fluid

Description

Q8 Degreasing Fluid B is an advanced degreaser. Thanks to its high flash point (105°C) and low volatility, this odourless fluid is safer in use compared to other industrial degreasers. Q8 Degreasing Fluid B has a good biodegradability (according to the OECD 301 D closed bottle test) and limits corrosion of copper and ferrous metals. The degreaser is not emulsifiable with water.

Applications

Q8 Degreasing Fluid B is used to remove oil and grease of machinery, vehicles and workshop floors. It can be applied by spraying, brushing or mopping.

Benefits

- Effortless and safe application for operators
- Inherently biodegradable
- Odorless
- High flash point
- Low evaporation

Properties

	Method	Unit	Typical
Colour	Visual	-	Water white
Density, 15 °C	D 4052	g/ml	0.750
Kinematic Viscosity, 20 °C	D 445	mm ² /s	1.85
Kinematic Viscosity, 40 °C	D 445	mm ² /s	1.35
Pour Point	D 97	°C	-18
Flash Point, P-M	D 93	°C	74
