Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2015/830 - Belgium

## SAFETY DATA SHEET

## Q8 Mozart TM 20 SAE 30

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

| 1.1 Product identifier                            |   |
|---|---|
| Product name                                      | : Q8 Mozart TM 20 SAE 30  |
| Viscosity or Type                                 | : SAE 30  |
| 1.2 Relevant identified uses of                   | of the substance or mixture and uses advised against  |
| Material uses                                     | : Lubricating oil for marine engines  |
| 1.3 Details of the supplier of                    | the safety data sheet   |
| Manufacturer / Distributor                        | : Kuwait Petroleum Companies in the Benelux<br>Company Office: Brusselstraat 59, 2018 Antwerp, Belgium<br>Contactaddress: Petroleumkaai 7, 2020 Antwerp, Belgium<br>Tel. +32 3 247 38 11, Fax +32 3 216 03 42 |
| e-mail address of person responsible for this SDS | : SDSinfo@Q8.com, communication preferably in English only.   |

#### 1.4 Emergency telephone number

| Europe                | : +44 (0) 1235 239 670 |
|-----------------------|------------------------|
| Global (English only) | : +44 (0) 1865 407 333 |

## **SECTION 2: Hazards identification**

# 2.1 Classification of the substance or mixture Product definition : Mixture Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] Not classified.

The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended.

| Ingredients of unknown toxicity       | : | None. |
|---------------------------------------|---|-------|
| Ingredients of unknown<br>ecotoxicity | : | None. |

See Section 11 for more detailed information on health effects and symptoms.

| 2.2 Label elements          |  |
|-----------------------------|--|
| Signal word                 | : No signal word.  |
| Hazard statements           | : No known significant effects or critical hazards.  |
| Precautionary statements    |  |
| Prevention                  | : Not applicable.  |
| Response                    | : Not applicable.  |
| Storage                     | : Not applicable.  |
| Disposal                    | : Not applicable.  |
| Supplemental label elements | <ul> <li>Contains Benzoic acid, 2-hydroxy-, mono-C&gt;13-alkyl derivs., calcium salts (2:1).</li> <li>May produce an allergic reaction. Safety data sheet available on request.</li> </ul> |

CARECHEM24

## **SECTION 2: Hazards identification**

|   | -          |   |
|---|------------|---|
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | :          | Not applicable.   |
| Special packaging requirem  | <u>ien</u> | u <u>ts</u>   |
| Containers to be fitted<br>with child-resistant<br>fastenings   | :          | Not applicable.   |
| Tactile warning of danger   | :          | Not applicable.   |
| 2.3 Other hazards   |            |   |
| Product meets the criteria<br>for PBT or vPvB according<br>to Regulation (EC) No.<br>1907/2006, Annex XIII  | -          | This mixture does not contain any substances that are assessed to be a PBT or a vPvB. |
| Other hazards which do not result in classification   | :          | Prolonged or repeated contact may dry skin and cause irritation.                      |

## **SECTION 3: Composition/information on ingredients**

| 3.2 Mixtures : N   | lixture   |     |   |      |       |
|--|---|-----|---|------|-------|
| Product/ingredient name  | Identifiers   | %   | Regulation (EC) No.<br>1272/2008 [CLP]  | Туре | Notes |
| Øistillates (petroleum),<br>hydrotreated heavy paraffinic                      | REACH #:<br>01-2119484627-25<br>EC: 265-157-1<br>CAS: 64742-54-7<br>Index: 649-467-00-8 | ≥90 | Not classified.   | [2]  | L     |
| Mineral oil  | CAS: *  | ≤5  | Not classified.   | [2]  | -     |
| Benzoic acid, 2-hydroxy-, mono-<br>C>13-alkyl derivs., calcium salts (2:<br>1) | EC: 281-018-8<br>CAS: 83846-43-9  | ≤3  | Skin Sens. 1, H317  | [1]  | -     |
|  |   |     | See Section 16 for<br>the full text of the H<br>statements declared<br>above. |      |       |

The mineral oils in the product contain < 3% DMSO extract (IP 346).

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

<u>Type</u>

Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

[5] Substance of equivalent concern

[6] Additional disclosure due to company policy

Occupational exposure limits, if available, are listed in Section 8.

## **SECTION 4: First aid measures**

| 4.1 Description of first aid m | neasures  |
|--------------------------------|---|
| Eye contact                    | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention.  |
| Inhalation                     | <ul> <li>Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br/>Get medical attention if symptoms occur.</li> </ul>   |
| Skin contact                   | : Wash skin thoroughly with soap and water or use recognized skin cleanser.<br>Remove contaminated clothing and shoes. Get medical attention if symptoms occur.   |
| Ingestion                      | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |
| Protection of first-aiders     | : No action shall be taken involving any personal risk or without suitable training.  |

#### 4.2 Most important symptoms and effects, both acute and delayed

#### Over-exposure signs/symptoms

| Eye contact  | : No specific data.  |
|--------------|--|
| Inhalation   | : No specific data.  |
| Skin contact | : Adverse symptoms may include the following:<br>irritation<br>dryness<br>cracking |
| Ingestion    | : No specific data.  |

#### 4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician  | : Treat symptomatically. Contact poison treatment specialist immediately if large |
|---------------------|---|
|                     | quantities have been ingested or inhaled.   |
| Specific treatments | : No specific treatment.  |

## **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media<br>Suitable extinguishing<br>media | :  | Use dry chemical, CO <sub>2</sub> , alcohol-resistant foam or water spray (fog).  |
|--|----|---|
| Unsuitable extinguishing media                             | :  | Do not use water jet.   |
| 5.2 Special hazards arising fr                             | om | the substance or mixture  |
| Hazards from the substance or mixture                      | :  | In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous combustion products                              | :  | Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>sulfur oxides   |
| 5.3 Advice for firefighters                                |    |   |
| Special protective actions for fire-fighters               | :  | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Special protective<br>equipment for fire-fighters          | :  | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |

## **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, pro   | tective equipment and emergency procedures   |
|---------------------------------|--|
| For non-emergency<br>personnel  | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Put on appropriate<br>personal protective equipment.   |
| For emergency responders        | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| 6.2 Environmental precautions   | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  |
| 6.3 Methods and materials fo    | r containment and cleaning up  |
| Small spill                     | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
| Large spill                     | : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. |
| 6.4 Reference to other sections | <ul> <li>See Section 1 for emergency contact information.</li> <li>See Section 8 for information on appropriate personal protective equipment.</li> <li>See Section 13 for additional waste treatment information.</li> </ul>  |

## **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8).   |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

| 7.3 Specific end use(s)    |                  |
|----------------------------|------------------|
| Recommendations            | : Not available. |
| Industrial sector specific | : Not available. |
| solutions                  |                  |

## **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

#### 8.1 Control parameters

#### **Occupational exposure limits**

| Exposure limit values                             |
|---|
| Limit values (Belgium, 10/2018).                  |
| TWA: 5 mg/m <sup>3</sup> 8 hours. Form: mist      |
| STEL: 10 mg/m <sup>3</sup> 15 minutes. Form: mist |
| Limit values (Belgium, 11/2011).                  |
| TWA: 5 mg/m <sup>3</sup> 8 hours. Form: mist      |
| STEL: 10 mg/m <sup>3</sup> 15 minutes. Form: mist |
|   |

Recommended monitoring procedures If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

#### **DNELs/DMELs**

| Product/ingredient name  | Туре | Exposure                | Value                  | Population            | Effects  |
|--|------|-------------------------|------------------------|-----------------------|----------|
| Penzoic acid, 2-hydroxy-, mono-<br>C>13-alkyl derivs., calcium salts (2:<br>1) | DNEL | Long term Oral          | 0.25 mg/<br>kg bw/day  | General<br>population | Systemic |
|  | DNEL | Long term Dermal        | 0.25 mg/<br>kg bw/day  | General<br>population | Systemic |
|  | DNEL | Long term Dermal        | 0.5 mg/kg<br>bw/day    | Workers               | Systemic |
|  | DNEL | Long term<br>Inhalation | 0.87 mg/m <sup>3</sup> | General<br>population | Systemic |
|  | DNEL | Long term<br>Inhalation | 3.53 mg/m <sup>3</sup> | Workers               | Systemic |

#### **PNECs**

No PNECs available.

| 8.2 Exposure controls<br>Appropriate engineering<br>controls | : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |
|--|---|
| Individual protection meas                                   | <u>ures</u>   |
| Hygiene measures   | : Wash hands, forearms and face thoroughly after handling chemical products,<br>before eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and<br>safety showers are close to the workstation location. |
| Eye/face protection  | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.   |
|  |   |

## **SECTION 8: Exposure controls/personal protection**

| Skin protection                 |  |
|---------------------------------|--|
| · · · ·                         |  |
| Hand protection                 | : Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Wear suitable gloves tested to EN374. Recommended: < 1<br>hour (breakthrough time): nitrile rubber 0.17 mm.  |
| Body protection                 | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Other skin protection           | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Respiratory protection          | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. Recommended: Boiling point > 65 °C: A1; Boiling point < 65 °C: AX1; Hot material: A1P2. |
| Environmental exposure controls | : Emissions from ventilation or work process equipment should be checked to<br>ensure they comply with the requirements of environmental protection legislation.<br>In some cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels.                                    |

## **SECTION 9: Physical and chemical properties**

#### 9.1 Information on basic physical and chemical properties

| 9.1 mormation on basic physical                 | a | nu chemical properties  |
|---|---|---|
| <u>Appearance</u>                               |   |   |
| Physical state                                  | 1 | Liquid. [Oily liquid.]  |
| Appearance                                      | 1 | Clear.  |
| Color   | 1 | Brown.  |
| Odor  | 1 | Slight  |
| Odor threshold                                  | 1 | Not available.  |
| рН  | 1 | 8   |

**Reproductive toxicity** 

| Product/ingredient name | Maternal<br>toxicity | Fertility | Development<br>toxin | Species            | Dose                    | Exposure |
|-------------------------|----------------------|-----------|----------------------|--------------------|-------------------------|----------|
| Mineral oil             | Negative             | Negative  | Negative             | Rat - Male, Female | Oral:<br>1000 mg/<br>kg | -        |

**Conclusion/Summary** : Not available.

#### **Teratogenicity**

| Product/ingredient name | Result            | Species | Dose       | Exposure        |
|-------------------------|-------------------|---------|------------|-----------------|
| Mineral oil             | Negative - Dermal | Rat     | 2000 mg/kg | 7 days per week |

**Conclusion/Summary** : Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

#### **Aspiration hazard**

Not available.

#### Information on the likely : Not available. routes of exposure

Potential acute health effects

| Eye contact  | : No known significant effects or critical hazards.             |
|--------------|---|
| Inhalation   | : No known significant effects or critical hazards.             |
| Skin contact | : Defatting to the skin. May cause skin dryness and irritation. |
| Ingestion    | : No known significant effects or critical hazards.             |

#### Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact  | : No specific data.  |
|--------------|--|
| Inhalation   | : No specific data.  |
| Skin contact | : Adverse symptoms may include the following:<br>irritation<br>dryness<br>cracking |
| Ingestion    | : No specific data.  |

| Delayed and immediate effect   | ts and also chronic effects from short and long term exposure |
|--------------------------------|---|
| <u>Short term exposure</u>     |   |
| Potential immediate<br>effects | : Not available.  |
| Potential delayed effects      | : Not available.  |

effects

## **SECTION 11: Toxicological information**

Potential immediate : Not available.

Potential delayed effects : Not available.

#### Potential chronic health effects

| Product/ingredient name         | Result  | Species                                | Dose        | Exposure                     |
|---------------------------------|---|--|-------------|------------------------------|
| Mineral oil                     | Sub-chronic NOAEL Oral  | Rat - Male,<br>Female                  | ≥2000 mg/kg | 13 weeks; 5<br>days per week |
|                                 | Sub-acute LOAEL Oral  | Rat - Male                             | 125 mg/kg   | 13 weeks; 5<br>hours per day |
|                                 | Sub-acute NOAEL Inhalation Vapor  | Rat - Male                             | >980 mg/m³  | 4 weeks; 5 days<br>per week  |
| Conclusion/Summary              | : Not available.  |  |             |                              |
| General                         | : Prolonged or repeated contact can defat the skin and lead to irritation, cracking and<br>or dermatitis. |  |             |                              |
| <b>A 1 1 1</b>                  | : No known significant effects or critical hazards.   |  |             |                              |

: Not available.

## **SECTION 12: Ecological information**

#### 12.1 Toxicity

| Product/ingredient name | Result                            | Species                    | Exposure |
|-------------------------|-----------------------------------|----------------------------|----------|
| Mineral oil             | Acute NEL >100 mg/l Fresh water   | Algae                      | 72 hours |
|                         | Acute NEL >10000 mg/l Fresh water | Daphnia - Daphnia Magma    | 48 hours |
|                         | Acute NEL ≥100 mg/l Fresh water   | Fish - Pimephales promelas | 96 hours |
|                         | Chronic NEL 10 mg/l Fresh water   | Daphnia - Daphnia magna    | 21 days  |

**Conclusion/Summary** : Not available.

#### 12.2 Persistence and degradability

**Conclusion/Summary** : Not available.

| Product/ingredient name | Aquatic half-life | Photolysis | Biodegradability |
|-------------------------|-------------------|------------|------------------|
| Mineral oil             | -                 | -          | Inherent         |

#### 12.3 Bioaccumulative potential

Not available.

#### 12.4 Mobility in soil

| Soil/water partition coefficient (Koc) | : Not available. |
|--|------------------|
| Mobility                               | : Not available. |

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

**12.6 Other adverse effects** : No known significant effects or critical hazards.

| Date of issue/Date of revision : 21-04-2020 Date of previ | Dus issue : 14-12-2017 Version : 1.05 9/12 |

## SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### **13.1 Waste treatment methods**

| Product             |  |
|---------------------|--|
| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of<br>all authorities with jurisdiction. |
| Hazardous waste     | : Yes.   |

#### European waste catalogue (EWC)

| Waste code          | Waste designation   |
|---------------------|---|
| 13 02 05*           | mineral-based non-chlorinated engine, gear and lubricating oils   |
| Packaging           |   |
| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.                                    |
| Special precautions | : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |

## **SECTION 14: Transport information**

|                                    | ADR/RID        | ADN            | IMDG           | ΙΑΤΑ           |
|------------------------------------|----------------|----------------|----------------|----------------|
| 14.1 UN number                     | Not regulated. | Not regulated. | Not regulated. | Not regulated. |
| 14.2 UN proper<br>shipping name    | -              | -              | -              | -              |
| 14.3 Transport<br>hazard class(es) | -              | -              | -              | -              |
| 14.4 Packing<br>group              | -              | -              | -              | -              |
| 14.5<br>Environmental<br>hazards   | No.            | No.            | No.            | No.            |

user

14.6 Special precautions for : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

14.7 Transport in bulk according to IMO instruments

: Not available.
