

Q8 Multi-Spray

Q8 Multi-Spray cleans, protects, penetrates and lubricates

Description

Q8 Multi-Spray is an all-in-one indispensable lubricant that cleans, protects, penetrates and lubricates. It helps to remove dirt, dissolves adhesives and allows easy removal of labels and tape. Q8 Multi-Spray contains corrosion-resistant ingredients to protect the metal surfaces against aggressive elements. It penetrates metal parts and lubricates moving parts.

Applications

Q8 Multi-Spray is used as a cleaner to remove all labels, tape, paint, excess bonding material and as a surface cleaner. Q8 Multi-Spray is also used as protection of all sorts of tools and equipment. Q8 Multi-Spray penetrates corroded parts such as bolts, nuts, locks and valves. Q8 Multi-Spray lubricates chains, locks, squeaky doors, rollers and moving parts

Benefits

- *Limited products needed thanks to versatile applications of lubricants*
- *Extreme penetrating effect*
- *Excellent cleaning properties*
- *Outstanding protection against corrosion*
- *Highly resistant to rust*
- *Advanced friction reduction*
