

Q8 Dino Bio 4

Eco-friendly asphalt release agent

Description

Q8 Dino Bio 4 is an exceptional eco-friendly asphalt release agent designed to be used as anti-sticking agent for cleaning tools and machinery. The product is readily bio-degradable, free of any hazard labeling has and non bio accumulative. Q8 Dino Bio 4 has a low viscosity that leads to easy application. It has a high flash point ($>160^{\circ}\text{C}$) and can be used in high temperatures environments.

Applications

Q8 Dino Bio 4 is used as an bio-degradable anti-sticking oil for asphalt plants, asphalt trucks and for cleaning tools at the work site. It is also applied as a cleaning solution in workshop floors. The intent of asphalt release agents is to eliminate harmful stripping products that have been in contact with bituminous products and to strip the asphalt from aggregates that cause detrimental pavement failures.

Benefits

- Label free product
- Reduced impact on the environment
- Free of harmful components
- Free of solvents
- Effortless and safe application for operators
- Harmless if exposed to humans
- Prevents sticking
- Easy application by spraying

Properties

	Method	Unit	Typical
Appearance	Visual	-	Bright & clear
Density, 15 °C	D 4052	g/ml	0.880
Kin. Viscosity Base Oil at 40 °C	D 445	mm ² /s	4
Flash Point, COC	D 92	°C	>160
Biodegradability, 28 days	OECD 301 B	%	75
