

Q8 Dino XL 12

Steel grid release agent

Description

Q8 Dino XL 12 is an anti-sticking solvent free oil for steel grids. Thanks to its low evaporation levels it reduces health and environmental risks. The exceptional oil has a high flash point and can be used in high temperature environments. The low viscosity of the Q8 Dino XL 12 results in an extremely easy application.

Applications

Q8 Dino XL 12 is used for the release of steel grids used in the production of AAC products (Autoclaved aerated concrete), such as prefabricated blocks, beams, frames, panels, cladding, etc.

Benefits

- Leads to an improved durability of the finished product quality
- Superior quality of the surface
- Light colour
