

# Q8 Holst 68

Advanced zinc-free hydraulic oil

# **Description**

The zinc-free Q8 Holst 68 is a perfect fit for a wide range of operational applications and for industrial equipment. The Q8 Holst 68 has an advanced filterability and demulsibility what makes it reliable for sensitive hydraulic servo systems. Thanks to its thermal and oxidation stability, this oil guarantees a long lubricant life time.

### **Applications**

Q8 Holst 68 is suitable for all kinds of systems, general industrial hydraulic applications and other industrial applications (low charged gears, pumps, compressors, bearings). It is also applied in sensitive hydraulic servo systems that require advanced demulsibility and filterability.

#### **Benefits**

- Decreased downtime thanks to increased maintenance efficiency
- · Zinc excluded technology
- · Optimum wear protection
- Outstanding filterability
- Highly fit for different operations

The figures above are not a specification. They are typical figures obtained within production tolerances.

# Sustainability

The product Carbon Footprint (PCF), cradle-to-gate (Q80ils state of the art facility in Belgium), of Q8 Holst 68 is  $1.22 \, \text{kg CO}_2 \text{eq} / \text{kg}$ .

Please contact Q80ils to learn more about the positive environmental impact, the

handprint, of this product.
To ensure accuracy and reliability, the PCF calculation tool has been verified by an independent third party. The verification report is available in the disclaimer.
