

# SAFETY DATA SHEET

## Q8 Rembrandt AT

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

**Product name** : Q8 Rembrandt AT  
**Viscosity or Type** : NLGI 2  
**EC number** : Not available.  
**CAS number** : Not available.

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Material uses** : grease

#### 1.3 Details of the supplier of the safety data sheet

**Supplier** : Kuwait Petroleum Companies in the Benelux  
Company Office: Desguinlei 100 - 8, 2018 Antwerp, Belgium  
Contactaddress: Petroleumkaai 7, 2020 Antwerp, Belgium  
Tel. +32 3 247 38 11, Fax +32 3 216 03 42

**Manufacturer / Distributor** : Kuwait Petroleum Belgium N.V./S.A. / Q8Oils Italia S.r.l.  
Petroleumkaai 7  
B-2020 Antwerp  
Belgium  
Via Volpedo 2  
15050 Castellar Guidobono (AL)  
Italy

**e-mail address of person responsible for this SDS** : SDSinfo@Q8.com, communication preferably in English only.

**PCN Information contact** : PCNinfo@Q8.com, communication preferably in English only.

#### 1.4 Emergency telephone number

**Europe** : +44 (0) 1235 239 670  
**Global (English only)** : +44 (0) 1865 407 333

#### National advisory body/Poison Center

**Belgium** : Poison Centre : +32 (0)70 245 245

### SECTION 2: Hazards identification

#### 2.1 Classification of the substance or mixture

**Product definition** : Mono-constituent substance

#### Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Not classified.

The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended.

**Ingredients of unknown toxicity** : None.

**Ingredients of unknown ecotoxicity** : None.

See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

**Signal word** : No signal word.  
**Hazard statements** : No known significant effects or critical hazards.  
**Precautionary statements**  
**Prevention** : Not applicable.

## SECTION 2: Hazards identification

|   |   |
|---|---|
| <b>Response</b>   | : Not applicable.                                     |
| <b>Storage</b>  | : Not applicable.                                     |
| <b>Disposal</b>   | : Not applicable.                                     |
| <b>Hazardous ingredients</b>  | : Residual oils (petroleum,) solvent-refined          |
| <b>Supplemental label elements</b>  | : <input checked="" type="checkbox"/> Not applicable. |
| <b>Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles</b> | : Not applicable.                                     |

### Special packaging requirements

|  |                   |
|--|-------------------|
| <b>Containers to be fitted with child-resistant fastenings</b> | : Not applicable. |
| <b>Tactile warning of danger</b>                               | : Not applicable. |

### 2.3 Other hazards

| <b>Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII</b> | <b>PBT</b>   | <b>P</b> | <b>B</b> | <b>T</b> | <b>vPvB</b> | <b>vP</b> | <b>vB</b> |
|--|--|----------|----------|----------|-------------|-----------|-----------|
|  | <input checked="" type="checkbox"/> No                             | N/A      | N/A      | No       | N/A         | N/A       | N/A       |
| <b>Other hazards which do not result in classification</b>   | : Prolonged or repeated contact may dry skin and cause irritation. |          |          |          |             |           |           |

## SECTION 3: Composition/information on ingredients

### 3.1 Substances

| <b>Product/ingredient name</b>             | <b>Identifiers</b>   | <b>%</b> | <b>Classification</b>  | <b>Specific Conc. Limits, M-factors and ATEs</b> | <b>Type</b> |
|--|--|----------|--|--|-------------|
| Residual oils (petroleum,) solvent-refined | REACH #: 01-2119488707-21<br>EC: 265-101-6<br>CAS: 64742-01-4<br>Index: 649-459-00-4 | ≥75      | Not classified.<br><br><b>See Section 16 for the full text of the H statements declared above.</b> | -  | [1]         |

The mineral base oils contained in this product are severely refined and contain less than 3% DMSO extract according to IP 346 method, and are therefore not classified as carcinogen according to Regulation (EC) No 1272/2008, note L.

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

#### Type

[1] Constituent

Occupational exposure limits, if available, are listed in Section 8.

## SECTION 4: First aid measures

### 4.1 Description of first aid measures

**Eye contact** : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.

**Inhalation** : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

**Skin contact** : Wash skin thoroughly with soap and water or use recognized skin cleanser. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.

**Ingestion** : Wash out mouth with water. Remove dentures if any. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

**Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

### 4.2 Most important symptoms and effects, both acute and delayed

#### Over-exposure signs/symptoms

**Eye contact** : No specific data.

**Inhalation** : No specific data.

**Skin contact** : Adverse symptoms may include the following:  
irritation  
dryness  
cracking

**Ingestion** : No specific data.

### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to physician** : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

**Specific treatments** : No specific treatment.

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

**Suitable extinguishing media** : Use dry chemical, CO<sub>2</sub>, alcohol-resistant foam or water spray (fog).

**Unsuitable extinguishing media** : Do not use water jet.

### 5.2 Special hazards arising from the substance or mixture

**Hazards from the substance or mixture** : In a fire or if heated, a pressure increase will occur and the container may burst.

**Hazardous combustion products** : No specific data.

## SECTION 5: Firefighting measures

### 5.3 Advice for firefighters

**Special protective actions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

**For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

**For emergency responders** : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

### 6.2 Environmental precautions

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### 6.3 Methods and materials for containment and cleaning up

**Small spill** : Stop leak if without risk. Move containers from spill area. Absorb with an inert material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

**Large spill** : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Dispose of via a licensed waste disposal contractor. Contain and collect spillage with non-combustible, absorbent material e. g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations.

**6.4 Reference to other sections** : See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

## SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 7.1 Precautions for safe handling

**Protective measures** : Put on appropriate personal protective equipment (see Section 8).

**Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## SECTION 7: Handling and storage

### 7.3 Specific end use(s)

**Recommendations** : Not available.

**Industrial sector specific solutions** : Not available.

## SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

### 8.1 Control parameters

#### Occupational exposure limits

| Product/ingredient name                    | Exposure limit values  |
|--|--|
| Residual oils (petroleum,) solvent-refined | <b>Limit values (Belgium, 12/2023) [Olie]</b><br>TWA 8 hours: 5 mg/m <sup>3</sup> . Form: mist.<br>STEL 15 minutes: 10 mg/m <sup>3</sup> . Form: mist. |

#### Biological exposure indices

No exposure indices known.

**Recommended monitoring procedures** : Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

#### DNELs/DMELs

##### **Product/ingredient name**

Residual oils (petroleum,) solvent-refined

##### **Result**

**DNEL - General population - Long term - Oral**  
0.74 mg/kg bw/day  
Effects: Systemic

**DNEL - Workers - Long term - Dermal**  
0.97 mg/kg bw/day  
Effects: Systemic

**DNEL - General population - Long term - Inhalation**  
1.19 mg/m<sup>3</sup>  
Effects: Local

**DNEL - Workers - Long term - Inhalation**  
2.73 mg/m<sup>3</sup>  
Effects: Systemic

**DNEL - Workers - Long term - Inhalation**  
5.58 mg/m<sup>3</sup>  
Effects: Local

#### PNECs

Not available.

### 8.2 Exposure controls

## SECTION 8: Exposure controls/personal protection

|  |  |
|--|--|
| <b>Appropriate engineering controls</b>      | : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.   |
| <b><u>Individual protection measures</u></b> |  |
| <b>Hygiene measures</b>                      | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.  |
| <b>Eye/face protection</b>                   | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.  |
| <b><u>Skin protection</u></b>                |  |
| <b>Hand protection</b>                       | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Wear suitable gloves tested to EN374. Recommended: < 1 hour (breakthrough time): nitrile rubber 0.17 mm. Provide employee with skin care programmes.   |
| <b>Body protection</b>                       | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| <b>Other skin protection</b>                 | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| <b>Respiratory protection</b>                | : <input checked="" type="checkbox"/> Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. Recommended: Boiling point > 65 °C: A1; Boiling point < 65 °C: AX1; Hot material: A1P2. Gas and combination filter cartridges should comply with the European standard EN14387. |
| <b>Environmental exposure controls</b>       | : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.   |

## SECTION 9: Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

### 9.1 Information on basic physical and chemical properties

#### Appearance

**Physical state** : Liquid. [grease]

**Appearance** : Not available.

**Color** :  Amber

**Odor** :  Characteristic

**Odor threshold** : Not available.

**Melting point/freezing point** : Not available.

**Boiling point or initial boiling point and boiling range** : Not available.

**Flammability** : Not applicable.

**Lower and upper explosion limit** : Not available.

**Flash point** : Open cup: >220°C (>428°F)

**Auto-ignition temperature** : Not available.

**Decomposition temperature** : Not available.

## SECTION 9: Physical and chemical properties

**pH** : Not applicable.

**Viscosity** : Not available.

**Solubility** :

| Media | Result      |
|-------|-------------|
| Water | Not soluble |

**Partition coefficient n-octanol/ water (log Pow)** : Not applicable.

**Vapor pressure** : Not available.

**Density** : 0.9 g/cm<sup>3</sup> [15°C (59°F)] [ASTM D 1298]

**Relative vapor density** : Not available.

### Particle characteristics

**Median particle size** : Not applicable.

## 9.2 Other information

### 9.2.1 Information with regard to physical hazard classes

**Explosive properties** : Not applicable.

**Oxidizing properties** : Not applicable.

### 9.2.2 Other safety characteristics

Not applicable.

## SECTION 10: Stability and reactivity

**10.1 Reactivity** : No specific test data related to reactivity available for this product or its ingredients.

**10.2 Chemical stability** : The product is stable.

**10.3 Possibility of hazardous reactions** : Under normal conditions of storage and use, hazardous reactions will not occur.

**10.4 Conditions to avoid** : No specific data.

**10.5 Incompatible materials** : Reactive or incompatible with the following materials:  
Strong oxidizing materials

**10.6 Hazardous decomposition products** : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## SECTION 11: Toxicological information

### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Acute toxicity

##### **Product/ingredient name**

Residual oils (petroleum, ) solvent-refined

##### **Result**

**Rat - Male, Female - Inhalation - LC50 Dusts and mists**

5.53 mg/l [4 hours]

Acute Inhalation Toxicity

**Conclusion/Summary [Product]** : Not available.

#### Acute toxicity estimates

## SECTION 11: Toxicological information

| Product/ingredient name                    | Oral (mg/kg) | Dermal (mg/kg) | Inhalation (gases) (ppm) | Inhalation (vapors) (mg/l) | Inhalation (dusts and mists) (mg/l) |
|--|--------------|----------------|--------------------------|----------------------------|-------------------------------------|
| Residual oils (petroleum,) solvent-refined | N/A          | N/A            | N/A                      | N/A                        | 5.53                                |

### Skin corrosion/irritation

#### Product/ingredient name

Residual oils (petroleum,) solvent-refined

#### Result

##### **Rabbit - Skin - Erythema/Eschar**

Duration of treatment/exposure: 72 hours

Observation period: 7 days

Irritation score: 0.17

Fully reversible in 7 days or less

##### **Rabbit - Skin - Edema**

Duration of treatment/exposure: 72 hours

Observation period: 7 days

Irritation score: 0

Fully reversible in 7 days or less

**Conclusion/Summary [Product] :** Not available.

### Serious eye damage/eye irritation

#### Product/ingredient name

Residual oils (petroleum,) solvent-refined

#### Result

##### **Rabbit - Eyes - Iris lesion**

Acute Eye Irritation/Corrosion

Duration of treatment/exposure: 48 hours

Observation period: 72 hours

Irritation score: 0

Fully reversible in 7 days or less

##### **Rabbit - Eyes - Redness of the conjunctivae**

Acute Eye Irritation/Corrosion

Duration of treatment/exposure: 48 hours

Observation period: 72 hours

Irritation score: 0.33

Fully reversible in 7 days or less

**Conclusion/Summary [Product] :** Not available.

### Respiratory corrosion/irritation

Not available.

**Conclusion/Summary [Product] :** Not available.

### Respiratory or skin sensitization

#### Product/ingredient name

Residual oils (petroleum,) solvent-refined

#### Result

##### **Guinea pig - skin**

Skin Sensitization

Result: Not sensitizing

### Skin

**Conclusion/Summary [Product] :** Not available.

### Respiratory

## SECTION 11: Toxicological information

Conclusion/Summary [Product] : Not available.

### Germ cell mutagenicity

#### **Product/ingredient name**

☒ Residual oils (petroleum,) solvent-refined

#### **Result**

**In vivo - Mammalian-Animal - Somatic - Intraperitoneal**

Mammalian Erythrocyte Micronucleus Test

Result: Negative

Conclusion/Summary [Product] : Not available.

### Carcinogenicity

#### **Product/ingredient name**

☒ Residual oils (petroleum,) solvent-refined

#### **Result**

**Mouse - Female - Dermal - TC**

Carcinogenicity Studies

78 weeks

Result: Negative

Conclusion/Summary [Product] : Not available.

### Reproductive toxicity

#### **Product/ingredient name**

☒ Residual oils (petroleum,) solvent-refined

#### **Result**

**Rat - Male, Female - Oral**

Reproduction/Developmental Toxicity Screening Test

1000 mg/kg

Effects: No effect level.

Maternal toxicity: Negative

Fertility effects: Negative

Developmental: Negative

Conclusion/Summary [Product] : Not available.

### Specific target organ toxicity (single exposure)

Not available.

### Specific target organ toxicity (repeated exposure)

Not available.

### Aspiration hazard

Not available.

### Information on the likely routes of exposure

Not available.

### Potential acute health effects

**Eye contact** : No known significant effects or critical hazards.

**Inhalation** : No known significant effects or critical hazards.

**Skin contact** : Defatting to the skin. May cause skin dryness and irritation.

**Ingestion** : No known significant effects or critical hazards.

### Symptoms related to the physical, chemical and toxicological characteristics

**Eye contact** : No specific data.

**Inhalation** : No specific data.

## SECTION 11: Toxicological information

**Skin contact** : Adverse symptoms may include the following:  
irritation  
dryness  
cracking

**Ingestion** : No specific data.

### Delayed and immediate effects and also chronic effects from short and long term exposure

#### Short term exposure

**Potential immediate effects** : Not available.

**Potential delayed effects** : Not available.

#### Long term exposure

**Potential immediate effects** : Not available.

**Potential delayed effects** : Not available.

#### Potential chronic health effects

##### **Product/ingredient name**

Residual oils (petroleum,) solvent-refined

##### **Result**

##### **Sub-chronic - Rat - Male, Female - Oral - NOAEL**

Subchronic Dermal Toxicity: 90-day Study

≥2000 mg/kg [5 days per week] [13 weeks]

##### **Sub-acute - Rat - Male - Oral - LOAEL**

Repeated Dose 90-Day Oral Toxicity Study in Rodents

125 mg/kg [5 hours per day] [13 weeks]

##### **Sub-acute - Rat - Male - Inhalation - NOAEL**

>980 mg/m<sup>3</sup> [5 days per week] [4 weeks]

**Conclusion/Summary [Product]** : Not available.

**General** : Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis.

**Carcinogenicity** : No known significant effects or critical hazards.

**Mutagenicity** : No known significant effects or critical hazards.

**Reproductive toxicity** : No known significant effects or critical hazards.

## 11.2 Information on other hazards

### 11.2.1 Endocrine disrupting properties

Not available.

**Conclusion/Summary [Product]** : The product does not meet the criteria to be considered as having endocrine disrupting properties according to the criteria set out in either Regulation (EC) No. 1907/2006 or Regulation (EC) No 1272/2008.

### 11.2.2 Other information

Not available.

## SECTION 12: Ecological information

### 12.1 Toxicity

Not available.

**Conclusion/Summary [Product]** : Not available.

### 12.2 Persistence and degradability

Not available.

**Conclusion/Summary [Product]** : Not available.

## SECTION 12: Ecological information

| Product/ingredient name                       | Aquatic half-life | Photolysis | Biodegradability |
|---|-------------------|------------|------------------|
| Residual oils (petroleum,)<br>solvent-refined | -                 | -          | Inherent         |

### 12.3 Bioaccumulative potential

| Product/ingredient name                       | LogP <sub>ow</sub> | BCF | Potential |
|---|--------------------|-----|-----------|
| Residual oils (petroleum,)<br>solvent-refined | >3                 | -   | Low       |

### 12.4 Mobility in soil

#### Soil/Water partition coefficient

Not available.

#### Results of PMT and vPvM assessment

| Product/ingredient name                       | PMT | P  | M  | T  | vPvM | vP | vM |
|---|-----|----|----|----|------|----|----|
| Residual oils (petroleum,)<br>solvent-refined | No  | No | No | No | No   | No | No |

**Mobility** : Not available.

**Conclusion/Summary** : The product does not meet the criteria to be considered as a PMT or vPvM.

### 12.5 Results of PBT and vPvB assessment

#### Regulation (EC) No. 1907/2006 [REACH]

According to the results of its assessment, this substance is not a PBT or a vPvB.

#### Regulation (EC) No. 1272/2008 [CLP]

| Product/ingredient name                       | PBT | P  | B  | T  | vPvB | vP | vB |
|---|-----|----|----|----|------|----|----|
| Residual oils (petroleum,)<br>solvent-refined | No  | No | No | No | No   | No | No |

**Conclusion/Summary** : The product does not meet the criteria to be considered as a PBT or vPvB.

**Regulation (EC) No. 1272/2008 [CLP]**

### 12.6 Endocrine disrupting properties

Not available.

**Conclusion/Summary [Product]** : The product does not meet the criteria to be considered as having endocrine disrupting properties according to the criteria set out in either Regulation (EC) No. 1907/2006 or Regulation (EC) No 1272/2008.

### 12.7 Other adverse effects

No known significant effects or critical hazards.

## SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 13.1 Waste treatment methods

#### Product

## SECTION 13: Disposal considerations

**Methods of disposal** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

**Hazardous waste** : Yes.

### European waste catalogue (EWC)

| Waste code | Waste designation              |
|------------|--------------------------------|
| 13 08 99*  | wastes not otherwise specified |

### Packaging

**Methods of disposal** : The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

**Special precautions** : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## SECTION 14: Transport information

|  | ADR/RID        | ADN            | IMDG           | IATA           |

**14.6 Special precautions for user** : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**14.7 Maritime transport in bulk according to IMO instruments** : Not available.

## SECTION 15: Regulatory information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture EU Regulation (EC) No. 1907/2006 (REACH)

#### Annex XIV - List of substances subject to authorization

##### Annex XIV

None of the components are listed.

#### Substances of very high concern

None of the components are listed.

## SECTION 15: Regulatory information

### Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

No listed substance

### Other EU regulations

**Industrial emissions** : Not listed

(integrated pollution prevention and control) - Air

**Industrial emissions** : Not listed

(integrated pollution prevention and control) - Water

**Explosive precursors** : Not applicable.

### Ozone depleting substances (EU 2024/590)

Not listed.

### Prior Informed Consent (PIC) (649/2012/EU)

Not listed.

### Persistent Organic Pollutants (1021/2019/EU)

Not listed.

### Seveso Directive

This product is not controlled under the Seveso Directive.

### National regulations

#### Germany

**Hazard class for water** : 3  
(WGK)

#### Switzerland

**VOC content** : Exempt.

### International regulations

#### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### Montreal Protocol

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not listed.

#### Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

#### UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

### Inventory list

**Australia** : Not determined.

**Canada** : Not determined.

**China** : Not determined.

**Eurasian Economic Union** : **Russian Federation inventory:** Not determined.

**Japan** : **Japan inventory (CSCL):** Not determined.

**Japan inventory (ISHL):** Not determined.

**New Zealand** : Not determined.

**Philippines** : Not determined.

## SECTION 16: Other information

vPvB = Very Persistent and Very Bioaccumulative

### Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Not classified.

The mineral base oils contained in this product are severely refined and contain less than 3% DMSO extract according to IP 346 method, and are therefore not classified as carcinogen according to Regulation (EC) No 1272/2008, note L.

Note L: The classification as a carcinogen need not apply if it can be shown that the substance contains less than 3 % DMSO extract as measured by IP 346 "Determination of polycyclic aromatics in unused lubricating base oils and asphaltene free petroleum fractions — Dimethyl sulphoxide extraction refractive index method", Institute of Petroleum, London. This note applies only to certain complex oil-derived substances in Part 3.

### Full text of abbreviated H statements

Not applicable.

### Full text of classifications [CLP/GHS]

Not applicable.

**Training advice** : Ensure operatives are trained to minimise exposures.
